It's the man who looks ahead who gets ahead. GOOD management . . . essential to successful farming, as to any business enterprise . . . is largely a matter of timely marketing and careful spending . . . waiting for the time when it is most favourable to buy. We all want things now . . . things we have not been able to get for the past several years. Some of these things are necessities . . . some are things that will contribute to our comforts and pleasures. Eventually, these things will be more plentiful. By waiting a little longer we will help to keep prices of things we need at lower levels and we will buy at

Meantime we can invest our savings in the safest securities obtainable . . . Victory Bonds. More Victory Bonds will be offered this Fall. They pay 3% interest . . . double bank interest . . . and they are "liquid capital". If we need cash in an emergency any bank will buy Victory Bonds at any time. IOMATO JUICE

LIBBY'S garden-fresh NEW PACK of Tomato Juice is in! Now you can enjoy the matchless fresh tomato flavour which has made Libby's Canada's favourite health drink,

Only the choicest tomatoes are used in this superbly delicious For 33 years Libby experts have selected the prize tomatoes from each successive crop and extracted their seed for next year. The result has been progressively finer tomatoes-thin-skinned beauties, uniformly smooth and fine-textured, bursting with juice and flavour.

These matchless tomatoes are picked at the peak of perfection, when they're plumpest, juiciest and rosiest. Still glistening with morning dew, they're rushed to Libby's kitchens where they're "Gentle Pressed" and packed within a few hours. The process of "Gentle Pressing" is patented, exclusive with Libby's. It extracts only the sweetest juice with all the garden-fresh flavour and vitamins of the luscious, ripe tomatoes. That's why Libby's "Gentle Press" Tomato Juice is first choice—more sought after than any other tomato juice in Canada.

Serve Libby's often—as a pick-up at breakfast, a cocktail at lunch, an appetizer at dinner. Keep it in the refrigerator and let the children help themselves. Libby's Tomato Juice is good for them, an excellent source of vitamins A and C. and rich in valuable minerals.

... There She Goes!"

YES, there goes the whistle that means Jobs! But remember! Factory whistles will keep blowing . . . smoke will keep pouring from factory chimneys, only if you and all of us do out part to keep Canada's dollar sound. And unless the chief the Canadian dollar worth a dollar, we're headed for inflation, and its inevitable we're headed for inflation, and its inevitable. result—depression!

Canada's active fight against inflation is a vital part of all our post-war planning. We Canadians must note—more than ever now-fight to keep Canada's dollar worth a full dollar!

Why now especially? Because now civilian goods are scarce, and yet money is plentiful. This is a dangerous condition.

It means we must maintain controls and price ceilings; support rationing and urge the support of rationing. We must buy guard as all times, checking, working, guard as all times, checking, working, splitting to keep Canada's follars ound. If we do this, we can keep prices from rising, the weath of the weath of the control of goods, which means our dollar is only sem? So which means our dollar is only sem? So

We know what happened after the last war! We must fight against it happening again. For our own sakes—for the sake of the men who fought overseas and to whom we owe a future with a job, we must keep Canada's dollar worth a full dollar.We must keep up an active fight against inflation!

Make this Pledge Today!

I pledge myself to do my part in fighting inflation:

By observing retioning and avoiding black markets in any shape or form.

bleck markets in any suspension of respecting price controls and other action fastion measures, and refraining from careless and unnecessary buying. I will not buy two where one will do, nor will I buy a "new" where an "old" will do.

THE WARTIME PRICES AND TRADE BOARD

When Nazi U-boat commanders hoisted black flags of surrender, it was a "go ahead" signal to the three out of every eight Canadisas who normally depend for their livelihood on export

For five years the flow of foreign trade has been largely a government responsibility. But now, to help create peacetime jobs, Canadian enterprise must do its full share in finding customers sbroad. This means doing business all over the world, in strange and distant cities, in a hundred languages and currencies:

Canadian banks have a key role in this complicated but essen tial peacetime task. Every day their foreign branches and correspondents arrange credits, handle documents and perform other intricate operations to bring buyers and sellers together across the obstacles of distance, language and custom.

This banking service is of primary importance to business and to every Canadian worker as Canada turns to the task of recreating trade abroad to provide jobs at home,

"And in these years when prices and returns are more satisfactory than they have been, when labor is scarce, when farm machinery is restricted, when building materials are not readily available, a good course to follow would be that of putting a substantial share of the year's earnings into sound securities such as Victory Bonds, These reserves will not only provide a measure of insurance against difficulties in less favorable years, but at such time when supplies are favorable and costs will probably be lower, their purchasing power will be greater and return from them correspondingly increased.

"We believe this is good planning from the farmer's standpoint. At the same time, it is the very best of planning from the standpoint of the Nation."

... and someday, WE'LL take a trip!"

SOMEWHERE in the back of your mind, there's that urge to go places. Right now it must be filed under "Future" but it's part of us as Canadians to want to discover for ourselves what the rest of the world is like—to plan for that "some day," when we'll take a trip! That's why it must be part of our planning now, to make sure such pleasant things as trips are possible in the post-war world. And they'll be possible only if we fight against inflation—fight now to keep Canada's dollar worth a

Why is NOW so important? Because NOW civilian goods are scarce, money is plentiful. NOW is the time we must guard against paying more than things are worth
against black markets—against buying more than we need, or goods we don't need! NOW is the time we must support rationing and price controls!

Up to the present, we've kept our dollar sound. And we can continue to do so if we keep up a strong, steady fight against inflation!

If we fail in this fight, prices will rise. Wages will never quite catch up. Soon you'll pay, perhaps a dollar for a quarter's worth of goods! And that means your dollar is worth only a quarter! That's

And after inflation, comes depression. Depression means neither you nor anyone else in Canada will have trips. You'll be lucky if you have a job! So, for our own sakes, for the sake of returned men, for our children, let's never relax our struggle to keep Canada's dollar worth a full dollar!

Make this Pledge Today!

I pledge myself to do my part in fighting inflation:

By respecting price controls and other anti-inflation measures, and refrain-ing from careless and unnecessary buying. I will not buy two where one will do, not will buy a "new" where an "old" will do.

ISN'T IT THE TRUTH ?

By Ti-Jos

For what avail the plow or sailor land or life, if freedom fail?

But the cost of freedom is night—in precious young lives lost; in councless casualties suffered. This is the time when we must do all in our power to make our dearly-won freedom secure, and repay our debt to those who have suffered and sacrificed in freedom's cause.

Our armies of occupation must be maintained. Those who were wounded and disfigured in battle must receive the best medical attention and hospital care we can provide. Thousands returning from overseas must be successfully established in civilian life.

Yes—to those who fought in our behalf the cost of free-dom was high—but how little it is for us who are only asked to lend our money.

It's a big objective set for the Ninth Victory Loan. But freedom's cause must not fail—so let us show our thanks in a practical and substantial way by buying more Victory Bonds than we ever did before.

LINDSAY - 1939 - 1945

IS LINDSAY WORTH COMING HOME TO?

This question is being asked daily by members of the Armed Services from this district. It is unnermost in their thoughts.

Naturally, it is grand to be back with one's loved ones. But the veterans ask - "If we go on with our education, if we enter a profession, if we learn a trade, if we set up a store, a service station, will we prosper in Linds ay ?"

As never before, we can answer emphatically - YES. WHY?

The citizens of Lindsay, through six trying years, have stinted themselves of many things to provide increasing support on the Victory Loans. In Eight Victory Loans, the amazing total of \$7,209.550, has been raised. This represents over \$1,000.00 for every man, woman and child in this municipality. In the Eighth Loan, alone, the large sum of \$1,307,850, was saved.

But this large sum, obtained to provide the Tools of War, is now available to provide the Tools of Peace. Double duty dollars -- a vast reservoir of purchasing nower.

These Victory Loan dollars have been ear-marked--a new car, (more) gas and tires), a new radio, (more sales and servicing), stoves, refrigerators, furniture (merchants), a new home, (building trades, wiring, plumbing brick-laying etc.), better care for our families (doctors, dentists, hospitalization), new industries coming to Lindsay. For six years, most willingly these things have been passed up, to provide the Armed Services with the best Tools for War. Now these saved dollars are available for such things.

Yes, they are double duty dollars.

The Tools for War - now the Tools for Peace.

To this large sum of \$7,209,550., we, your elected representatives, can assure you that at least the sum of \$1,315,000, our local objective for the Ninth Loan, will be added.

There is no doubt. We will do our utmost to bridge the gap. You have given 3, 5 or 6 years learning the trades of War. We are with you in learning the trades of Peace.

Yes, Lindsay is a town worth coming home to. This assurance will be guaranteed by the over-subscription of our Ninth Victory Loan Objective.

TALKS WILL EMBRACE ALL PROBLEMS
In his first formal statement to Commons on the atomic bomb, Attlee revealed that his forthcomin talks with Mr. Truman would embrace the whole rang of problems arising from the Anglo-American discover of the cosmic weapon.

of the cosmic weapon.

PRIME MINISTER KING TO ATTEND

Attice said he had invited Canadian Prime Minister
W. L. Mackenzie King and Sir John Anderson, chairman
of Britain's atomic energy advisory commission to accompany him to Washington for the conferences which
are expected to open on or about Nov. 11.

WOULD TAKE IN PREW WIDER SCOPE
Former Prime Minister Winston Churchill inter
rupted at this point to suggest that Washington talk
should not be limited solely to the atomic bomb que
tion but should cover every thing which "would lead t
good relations between ourselves and the United States."

Churchill presumably referred to the British nego-tiations now in progress for a multi-billion dollar loan to replace the lend lease aid which America had extend-ed to Britain throughout the war.

Attied did not claberate on that point, nor did he say whether he planned a proposal to outlaw the future use of the atomic bomb as a war weapon, as some British observers had predicted.

PLANS NOT REVEALED

King is in London, but it was not revealed immediately whether he would travel to the United States with Attlee or meet him in Washington.

QUESTION ATTLEE ON PALESTINE POWDERKEG
Opposition spokesmen seized on Attlee's annearance
in Commons to question him on the explosive Palestine
situation and the present location of units of the British
Army and Air Forces.

"Atthe surprised the House by refusing flately to report on the country-by-country deployment of Britain's ground and air forces.
"I regret that it is not in the public interest to give this information," he said in reply to a question by Churchill.

from here?

IN former Victory Loans, you bought Bonds to give our boys a fighting chance in War. Today, Canada urges you to give these boys a fighting chance in Peace. For among the great objectives of Canada's Ninth Victory Loan is the rehabilitation of returned men.

So, buy Victory Bonds to the limit. Help make up for those three to five years sacrificed by our boys in fighting for our freedom. Help make possible a great Canadian rehabilitation program by which our returned men will be efficiently trained... given a grade, an act or a skill by which to live, work, earn and enjoy employment, security and all other benefits of the peace for which they fought.

Remember, you, too, will benefit. You will gain in the know-ledge that the Victory Bonds you buy will be a reserve fund to help you in any emergency. You will gain in the know-ledge that you have helped repay, in some measure, our deep, unforgetable debt to the fighting lads whose courage made victory possible.
